Mr. Stimson, who talked for two hours, told also how Curtis just before last year's panic, when prudent bankers were conserving their resources, induced Morse to overdraw to the extent of \$210,000, and then instead of refusing to honor the overdraft, although he knew it would rain the bank, helped Morse out on the following day by aiding him to negotate a loan to cover the overdraft. After some testimony by the receiver of the National Bank of North America, Charles A. Hanna, and by Albert A. Clemnons, chief of the division of reports in the Comptroller's office, and by Edwin C. Slater, a draughtsman in the Army Engineering Department, who had drawn a diagram of the floor space of the bank to show the relation of the rooms occupied by the various officers, the Government called Edward Wire, cashier and had succeeded as cashier when Mr. Curtis became president of the bank.

Through Mr. Wire's testimony the Government traced, by means of the bank repords which were put in evidence, the connection of Morse with the bank and its management year by year, his election as director and finally as vice-president. He had named Curtis for the presidency. There were three vice-presidents, and one of them, Mr. Chapin, had antedated Mr. Morse in the bank, but in the reading of their names at roll call in the directors' meetings Mr. Morse's name was always called first. The vice-presidents were designated simply as such, and not as first, second and third vice-presidents.

Mr. Wire testified that at a special meeting Morse had nominated Charles M. Schwab as a director to fill a vacancy and Schwab was elected. On March 22, 1906. Henry Chapin resigned as director, "it being understood," as the minutes record, "that Mr. Chapin resigns only until there shall be a vacancy or until the board can be enlarged," and in his place was put John W. Mr. Wire showed the jury by the diagram that the officers of the bank occupied the directors' room was a room designated as the officers' room, except Mr. Morse's secretary, who, Mr. Wire said, had no employment in the bank itself and was not paid by the bank. All the other vice-presidents, Mr. Wire said, had a regular part in the bank's business, regular duties to perform; not so Morse. The witness testified also that the demand loan record was kept in a "loose leaf" book, the leaves of which may be detached.

# WHAT THE **ORCHESTRELLE** IS NOT

It is not an orchestrion.

It is not an instrument that plays itself. It is not an instrument in which the ex-

pression effects are automatically supplied. It is not an instrument for public halls or large auditoriums.

It is not an instrument suggestive in any way of a brass band, but on the contrary, is voiced to simulate the more refined ensemble of the symphony orchestra.

It is not an instrument limited to any particular kind, or class, or school of music.

It is not an instrument that requires any previous study of music in order to play, and to play well. It is not an instrument that the most

cultivated musical intelligence will fail to admire. It is not an instrument suggestive even remotely of "mechanical music."

It is not too large for the average home.

O understand what the Orchestrelle is, you must see and hear it for yourself. Possessing tones of exquisitelybeautiful quality and of surprisingly great variety, it is possible to make almost endless combinations, and so the fascination of playing it grows, rather than wanes, as the performer becomes acquainted with its vast capabilities for musical expression.

There is no other instrument with which the Orchestrelle can be fitly compared. If you have never heard it, you have before you both a surprise and musical treat.

The enthusiasm which the Orchestrelle has aroused in many celebrated authorities on music is such that no serious music-lover can afford to ignore it. We take pleasure in exhibiting it to any interested person irrespective of an intention to purchase.

During the day Mr. Hughes spoke at Rome, Oneida and Cahostata, defending his administration and asking the Chanler questions while his audience listened with the quiet of the lecture room until his conclusion; then most of them cheered him.

The meeting at Rome was one of the largest addressed by the Governor. There was a great crowd on the streets and the new opera house was packet of the roof. There was the usual Jimmy Sherman Glee Club. Mr. Sherman ought certainly to get the vocal vote of the State, he is so fond of glee clubs.

S. H. Beach, president of the Rome Savings Bank, introduced Mr. Hughes, and the Romans hit up when he called him New York's best Governor.

All the mills at Oneida gave their hands a half holiday to hear the Governor. There hasn't been anything so exciting there since the wedding of one of the local editors. It is the home of Frank Williams, who is running for State Engineer, and Mr. Williams was there to see that Mr. Hughes got a good reception, so weres lot of Oneida's pretty girls.
